**For Immediate Release**  
**Tuesday, October 31, 2017**

## **Water Project on Cleveland Avenue scheduled to start on November 1, 2017**

**CHEYENNE, WY** – As part of ongoing efforts to maintain Cheyenne’s water system, the City of Cheyenne Board of Public Utilities (Board), intends to begin construction activities on Wednesday, November 1, 2017, weather permitting, on Cleveland Ave. from Cheyenne St. to Pershing Blvd. This water construction project will replace a water main and add a fire hydrant on Cleveland Avenue in conjunction with the City of Cheyenne’s storm water project. This project will build a more robust water system and will more efficiently serve the eastern side of Cheyenne with water.

Cleveland Ave. will be closed from Cheyenne St. to Pershing Blvd. until the end of November for the duration of the project. The Board apologizes for any inconvenience this project may cause and thank residents for cooperating with water system upgrades.
