

## **Minutes**

### **1. Roll Call**

Absent – Tom Dixon, Misty Helenbolt, Caroline Esch. All other members present. Staff present: Charles Bloom (Planning); Matt Murphy (PIO/Mayor); Dustin Humphreys (Engineering)

### **2. Approval of October 2025 Minutes**

- Approved

### **3. Introduction of Dustin Humphreys, City Engineer's Office**

Dustin was introduced and shared his role at the city. Dustin provided an update on the trail network at the Belvoir Ranch.

### **4. Goal Check-In**

Goal 1: David gave an update on development of GIS map; group to come up with Top 10 for December meeting; Group discussed how list will be organized

Goal 3: Charles said CCAP money is available to assist with goals, Lotus Engineering and Sustainability can help with that

- Matt said Medford, OR, does a similar Ride with Leadership event

- Matt will propose some times at December meeting. Friday noon for an initial work session, potential Slow Roll evening ride for all leaders.

Goal 4: Slow Roll can support an event related to this goal.

Goal 5: Charles provided update about the issue. City believes urban speed limits can be controlled locally without a speed study. Group will discuss letter of support in the future.

### **5. Update on Use of City Staff/Resources**

- Matt invited members to a Google Drive housed under the City Google account. Common documents can be placed in that drive.

### **6. Discussion of Connect 2050 Plan and ATAC involvement - Charles**

Charles reviewed bike and pedestrian elements of Connect 2050 plan. City will begin update to Plan Cheyenne, include new policy recommendations and include information about updating Greenway and bike systems.

ATAC discussed multi-use path examples; Charles shared engineering plans for several on-street bike project, including on Morrie Corridor.
