CITY TREASURER NOTES

GENERAL FUND REVENUES

Fiscal Year 2024 General Fund revenues are budgeted at \$67,762,226, which includes \$2,068,985 that has been approved by the Governing Body so far this year to be used from reserves. The City's actual revenues as of September 30, 2023 are \$17,163,947, or 25.33% of total budgeted revenue received during the first quarter. Generally, anything more than 25% is positive as this is the percentage of the fiscal year completed.

Below are highlights of General Fund revenues as of September 30, 2023; unless specified, all comparisons are between September 2022 and 2023:

Positive

- ♠ Building permit revenue has started off strong during the first quarter of Fiscal Year 2024 at 81.24% of projected revenue, and \$841,846 more in revenue compared to the first quarter of Fiscal Year 2023.
- ◆ Sales and use tax revenue is \$684,398 higher as of September 30, 2023 compared to the same time last year, and 29.93% of budgeted revenue.
- ↑ Lottery proceeds are at 48.68% of budgeted revenue and \$84,779 more than the same time last vear.
- ↑ Interest revenue is 37.13% of budgeted revenue and \$114,433 higher compared to revenues received in the first quarter of Fiscal Year 2023.

Neutral

- ↑ Contractor licensing is falling just shy of budgeted projections at 23.79%, and is \$11,025 less in revenue compared to the same time last year.
- ♠ Severance tax is slightly less than projections at 24.76% of budgeted revenue.
- ↑ Park rentals are also a little less than estimates at 24.69% of budgeted revenue.

Negative

- Gas and electric franchise fee revenues are less than anticipated at 18.13% of projected revenue, and \$189,547 less than the same time last year.
- ➡ Historic horse racing revenues are lower than projections at 22.52% of budgeted revenue. However, this revenue is \$86,137 higher than the same time last year. The City of Cheyenne currently has five off track betting locations, with one more planned in the Swan Ranch Business Park. The Fiscal Year 2024 budget does reflect this new facility which we estimated December 2023 as the opening date.
- Parking fines are falling short of estimations during the first quarter of Fiscal Year 2024 at 19.27% of budgeted revenue received.
- Court fines and bonds revenue received is also under projections at 20.01% and 20.46% of budgeted revenues, respectively.

GENERAL FUND EXPENDITURES

The City has budgeted \$67,762,226 for expenditures in Fiscal Year 2024. Departments have spent \$16,251,459 during the first quarter, which is 23.98% of the budget being used. Anything <u>less</u> than 25% is positive, as this is the percentage of the fiscal year that has been completed. At the same time last year, the City spent \$13,908,336 in expenditures. Therefore, the City has spent \$2,343,123 more this fiscal year compared to the same time last year.

Overall, the City has received \$912,488 more in revenues at the end of September compared to expenditures (see page 7).

GENERAL FUND RESERVES (FUND BALANCE)

Unassigned General Fund reserves are now at 222 days of budgeted operating expenditures at the end of September (see pages 8-9 for more information). This is 20 less days compared to the end of June 2023. The reason for this significant decrease is the annual budget is part of the calculation, and the City's annual budget increased \$5.694 million from Fiscal Year 2023 to Fiscal Year 2024.

The City now has \$22,462,014 in <u>spendable</u> reserves, plus \$22,277,992 (120 days of operating expenditures) that must be held as required by resolution, for a total of \$41,305,273 in unassigned reserves. In comparison, at the end of June the City had \$21,049,171 in spendable reserves. Therefore, the **spendable reserve level has increased by \$1,412,843** during the first quarter of Fiscal Year 2024.

FUND BALANCE DEFINITIONS

Fund balance, often referred to as reserves, is the difference between assets and liabilities reported in the City's governmental funds (i.e. General Fund). Generally there are limitations on how the resources of a governmental fund can be used. The force behind these limitations can vary significantly, depending on their source. Consequently, the fund balance reported in the annual financial statements is categorized into the five components as follows:

Nonspendable

■ Resources that are 1) not in spendable form, such as inventories, prepaids, long-term receivables, or non-financial assets held for resale, or 2) required to be maintained intact such as an endowment.

Restricted

Resources that are subject to externally enforceable legal restrictions; these restrictions would be either 1) externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments, or 2) imposed by law through constitutional provisions or enabling legislation.

Committed

■ Resources that are constrained to specific purposes by a formal action (i.e. resolution or ordinance) of the City Council that requires formal action at the same level to remove the commitment.

Assigned

Resources that are constrained by the City's intent to be used for specific purposes, but that are neither restricted nor committed. The intended use is established by the highest level of decision making, another body designated for that purpose (i.e. Finance Committee), or by an official designated for that purpose such as the Mayor or City Treasurer.

Unassigned (both 60 day requirement and available to spend)

Within the General Fund, the residual resources, either positive or negative, in excess of what can be properly classified in one of the other four fund balance categories (nonspendable, restricted, committed, and assigned).
