

Standards

The City of Cheyenne does not regulate the quantity, dimensions, or size of election signs, but does regulate their location and permanence. These signs should never be closer to the street than traffic signs, or interfere with safe pedestrian or vehicular movements. These signs may be easily placed or removed from the ground or on a building without needing additional structures, construction, or specialized equipment.

Definitions

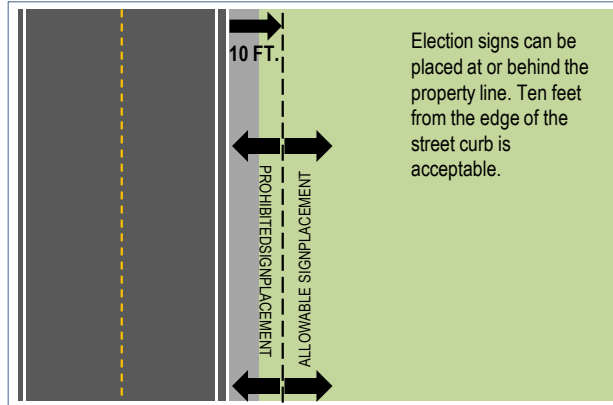

Right-of-way

The right-of-way is defined as land dedicated and set aside for use by the public, primarily for the right of vehicle or pedestrian travel, but typically designed to include multiple and other public purposes.

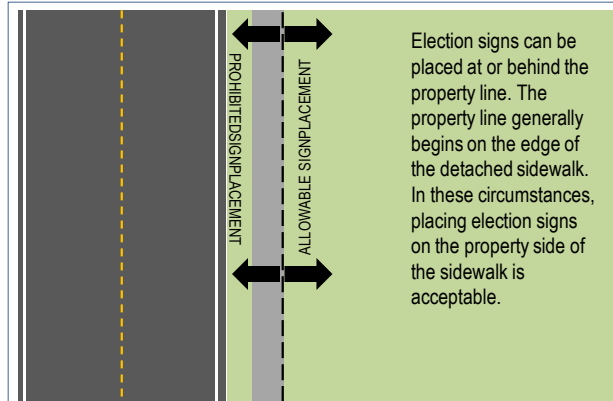

Sight Distance Triangle

The sight distance triangle is defined as the proper line of sight at all street intersections. The measurements for a sight distance triangle may vary depending on the speed of the roadways and the availability of on-street parking.

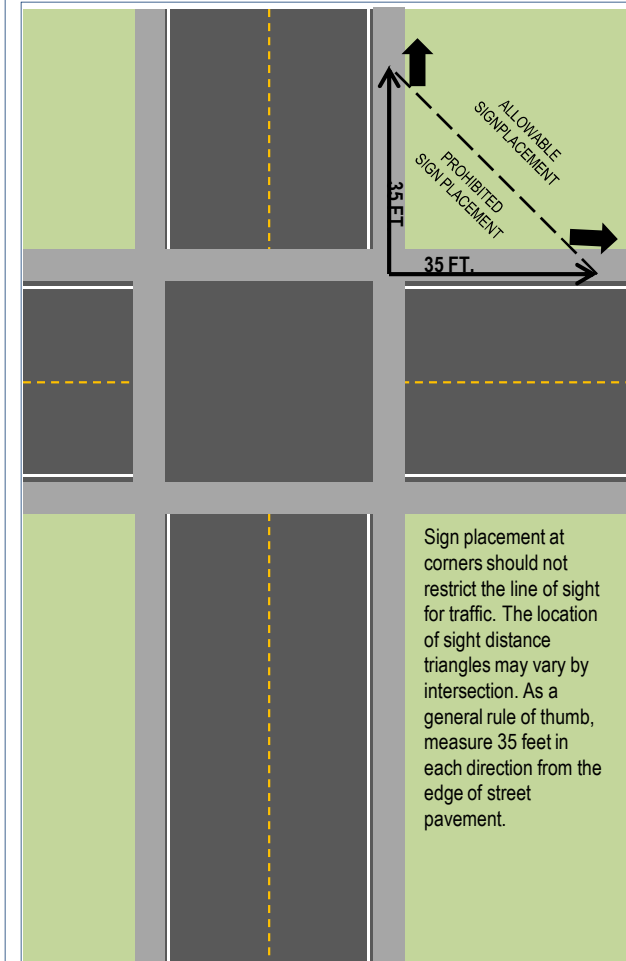

IF THE SIDEWALK IS ATTACHED TO STREET

IF THE SIDEWALK IS NOT ATTACHED TO STREET
